

CASE STUDY

SAFESOL.

THE CLEVER LITTLE CHEMICALS COMPANY

A leading online chemical retailer

SMALES

SECURE STORAGE

Issues

Office Space

Files of paper invoices take up valuable space.

Efficiency

"It can take time to track down a purchase price from a supplier invoice."

Disaster Management

A back-up of all invoices is needed in case of disaster recovery.

"It was a big change from all the frustration we used to face trawling through the files!

Invoices are now securely stored on the shared drive. Our business is more efficient. I could not recommend Laura and her team more highly."

Solution

Document Scanning

- Invoices collected direct from SafeSol Offices
- Documents available for scan-back within 1 hour
- 200% Quality Checking process
- Scanning process completed after sample scan approved
- Compliant AES 256 encrypted scanned documents now ready as a complete back up

Results

"The search facility is really helpful and makes tracking down information in invoices much simpler. We can now analyse data."

Searchability

"We have a solid backup."

Peace of mind

"Nothing was too much trouble. Laura & her team were very efficient."
